

## **YEAR 4 TRIP TO LOWER HURST FARM – WEDNESDAY 9<sup>TH</sup> JUNE 2010**

### **By Harry, Josh, Oliver and Ted**

We visited Lower Hurst Farm in Derbyshire. It was fun, exciting and interesting! We got to see the cows' carcasses and the butchery. We saw scrummy burgers being made and it was very interesting. The food was delicious and was organically made from the cows at the farm! We also made our own meat balls which everybody enjoyed.

### **By Lucy, Chloe, James and Tiger**

We went to Lower Hurst Farm to see where our school lunches come from.

We went on a tractor ride to see the cows and sheep on the farm. We also saw a cow's carcass, a cow's liver, tongue and kidney in the butchery.

It was really enjoyable seeing the animals and making the meatballs.

We visited Lower Hurst Farm in Derbyshire for our Y4FN trip. The food that is made there is delicious and scrumptious. We enjoyed the tractor ride the most and seeing the cut up parts of a cow's body. We also got to see how many meatballs they made in a day – we found out that it is 20,000.

We really enjoyed our trip and would recommend it to anyone.

We visited Lower Hurst Farm to find out where our school meat comes from. Other people should come on this trip because it is a fabulous experience to learn about all the things that cows do.

We went on a tractor ride across the grassy fields and stopped places to talk about things. A man also showed us how to make burgers and which ingredients to use.

We are very happy we went.

We visited Lower Hurst Farm; we thought the activities were fun and educational. We saw the burgers being made and it was MEGA COOL! Our friend had a go at being the butcher.

In the butchery we saw cow's heart, liver and things like that. We got to feel a cow's tongue and it was really squidgy.

We got to make our own meatballs. We had a little challenge at the end to see who could make a 20g meatball.

We visited Lower Hurst Farm in Derbyshire and it was fantastic. All of the children loved it.

Firstly, we went on a large tractor tour around the spacious farm and found out lots of interesting things about cows, bulls and sheep that we didn't know.

After lunch, which was very yummy, we looked at some carcasses and went to the butchery. At the butchery we saw the parts of a cow and tried on the clothes to protect the butcher.

After that, we saw a factory make burgers and meatballs then we made a meatball of our own.

**By Jordan, Ben, Philip and William**

We visited Lower Hurst Farm in Derbyshire which is an organic beef farm. A man called John and his mates took us on a tractor ride around the farm. We were on a trailer sitting on very comfortable hay bales. After the tractor ride we had lunch, yummy meatballs and twirly pasta with optional sauce.

After lunch we visited the butcher and touched a variety of meat then made meatballs and went home.

**By Naomi, Cameron and Izzy**

We visited Lower Hurst Farm. Everyone was excited because we got to see where the school food comes from.

We went on a tractor ride to get a tour of the fresh and amusing farm. Then we were very hungry so the kind amazing cook made us meatballs, pasta and a lovely smooth sauce. After our delicious lunch we made our own meatballs but unfortunately we didn't get to cook them.

We then had to say "Goodbye Lower Hurst Farm" and went back on to the coach.
